

These Reading Comprehension programs develop reading comprehension across the curriculum and helps raise test scores. The targeted instruction ensures learners develop strong content area reading skills.

Series Benefits

- Variety of content area passages as well as reading graphs, charts and tables, maps, and schedules
- Easy-to-read screens appeal to all learners
- Easy navigation through programs
- Updated management features help teachers individualize prescriptions for student or class
- Spoken glossaries help improve comprehension
- Additional Web-based activities provide real-world application of skills
- FREE reproducible worksheets for follow-up practice
- No installation or maintenance fees

Series Applications

- Individualized instruction with immediate feedback and positive reinforcement for multi-level classes
- Follows the NICHD Guidelines for disability intervention reading
- Raises reading scores quickly
- Helps students master the skills to read and comprehend textbooks and other print material
- Increases critical reading and thinking skills
- Improves scores on competency tests and GED
- Helps ELL/ESL learners transition into content area curricula or adult education programs

Series Management

- Complete record keeping by student and/or class
- Learner centered - no teacher setup required
- Bookmarking feature returns students to appropriate place in program if they exit before completing lesson
- Password protection for students
- Pass/fail percentages may be modified by teacher for each student or class
- Skills assignments can be automatic or set by teacher

	Enrichment	Core	Remedial

READING COMPREHENSION 1

GRADES 7-8

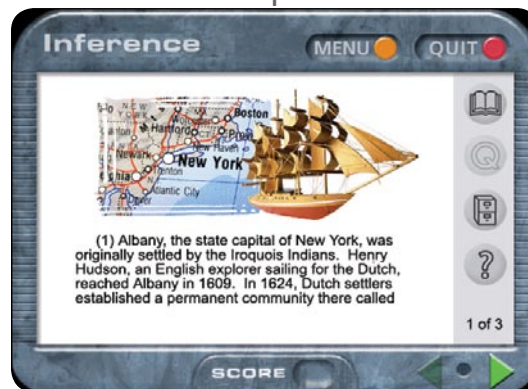

Reading Comprehension 1 assesses each learner's developmental skill level in main idea, fact/opinion, details, vocabulary, inference, and sequence. The student is then automatically assigned individualized instruction with enrichment or remediation.

Topics:

- Famous People
- Language Arts
- Earth Science
- Poverty
- Nobel Peace Prize
- Fear

Interactive reading comprehension lessons

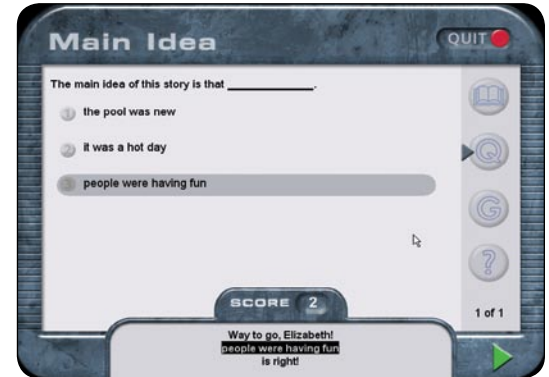

Key Concepts include:

- Details
- Inference
- Main Idea
- Sequence
- Vocabulary
- Fact and Opinion

READING COMPREHENSION 2

GRADES 8-9

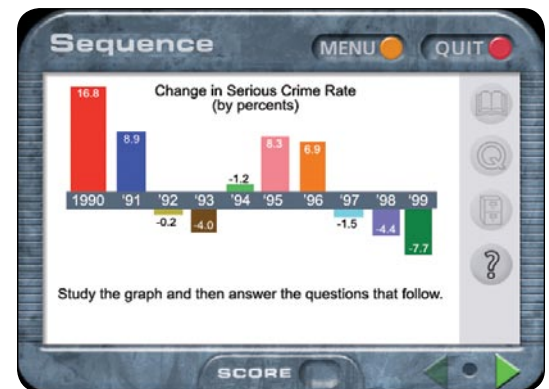

In addition to continual assessment of students' skill levels in main idea, fact/opinion, details, vocabulary, inference, and sequence, Reading Comprehension 2 also provides strategies needed to read and understand math, science, and social studies textbooks.

Topics:

- American History
- Fossils
- TV Violence
- Taxi Cabs
- Lyme Disease
- Contact Lenses

Quick diagnostic tests and continues evaluation

Continuous evaluation, tutorial remediation, or advancement keep students performing at their peak while increasing their comprehension skills.
