

Activities in this program help develop students' fluency skills and are designed to serve as a bridge between phonics and comprehension instruction. Each activity may stand on its own, but together they form a cohesive, comprehensive study of vital components of successful reading. Multiple exposures to focus words and models of fluent reading with highlighted text help develop students' reading skills.

Series Benefits

- Eleven activities include vocabulary development, phrase reading, fill-ins (cloze), student recording, comprehension questions, spelling, and writing
- Based upon the most frequently used words at all reading levels

Series Applications

- Can be used for progressive skill development or in isolation for revision, drill, and mastery learning
- Features a portfolio for viewing students' answers to open-ended questions and answers

Series Management

- Record and review student and class progress
- Choose and order specific stories and activities
