

The Touchdown Math Series is an ideal way to reinforce key math computational skills in a highly motivating environment. Students quarterback their teams to victory by working through a wide range of problem types preselected by teachers or selected by students. Correct answers gain yardage and first downs. Wrong answers allow the defense to take over. These multimedia titles include a coach with animated tutorials. Watch your students move toward math mastery as they enjoy these award-winning and highly popular learning games.

Series Features

- Each title offers a wide range of carefully selected skills
- Time-out feature provides struggling students with helpful step-by-step tutorials
- Perfect blend of time-on-task learning with football excitement

Series Applications

- Works well in the classroom, computer lab, and media center
- Use to supplement textbooks and other core math instruction

Series Management

- Utilizes self-enroll with automatic monitoring of students' progress
- Customizes programs for individual needs by selecting skills, setting difficulty levels, and tailoring program features

TD Math: Decimals													
TD Math: Fractions													
TD Math: Percents													
TD Math: Rounding													
TD Math: Whole Numbers													

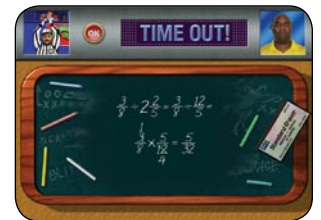

TOUCHDOWN MATH: DECIMALS

- Adding and subtracting decimals with up to five decimal places
- Multiplying and dividing decimals with zeros and various multipliers, divisors, etc.
- Mixed practice with money, whole numbers, decimals, and decimal fractions

TOUCHDOWN MATH: FRACTIONS

- Adding, subtracting, multiplying, and dividing fractions
- Simplifying proper and improper fractions and mixed numbers
- Finding the least common denominator
- Rewriting whole numbers and mixed numbers as fractions

TOUCHDOWN MATH: PERCENT

- Rewriting fractions/decimals into percents and vice versa
- Rewriting percent problems as equations to solve
- Finding the least common denominator
- Working with whole numbers, mixed numbers, percents, and decimal numbers

TOUCHDOWN MATH: ROUNDING

- Rounding with up to triple nines
- Rounding two- to five-digit whole numbers up to nearest thousandth
- Rounding decimal numbers to nearest thousandth
- Rounding larger numbers to hundred millions

TOUCHDOWN MATH: WHOLE NUMBERS

- Adding two, three, or four addends
- Subtracting whole numbers having up to six digits
- Mixed practice
- Multiplying and dividing whole numbers displayed horizontally or vertically
- Multiplying and dividing by one-, two-, or three-digit multipliers and divisors
