

The Vocabulary Builders programs were designed to improve oral and visual word recognition, enhance fluency, and speed lexical retrieval through the delivery of vocabulary and spelling instruction. Vocabulary Builders consistently introduces new vocabulary words to students through the use of meaningful sentence contexts. In addition to instruction, the series offers games, practice activities, student assessment, and tracking. Highly flexible teacher options make it easy to manage vocabulary lists with students working at different levels. This series affords students unlimited remediation and practice opportunities.

### Series Benefits

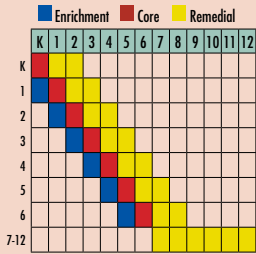

- Provides reinforcement of specific vocabulary content that the teacher is already teaching in textbooks
- Increases reading rate through multiple encounters with words
- Affords students unlimited remediation and practice opportunities, letting them work at their own pace

### Series Applications

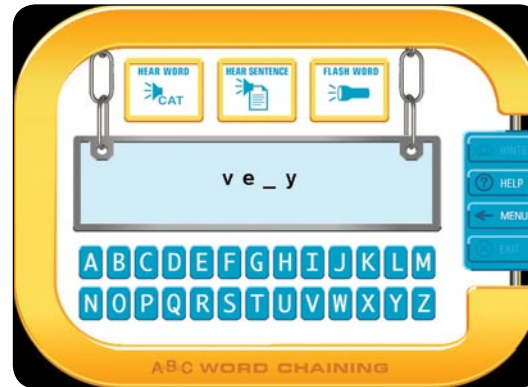

- Allows for scheduled coverage, so teachers can focus on other instruction

### Series Management

- Tracks and assesses students' work with printable progress reports

## WORD CHAINING

A word from the list is displayed in the middle of the screen; however, some of the letters are missing. The Speak and Flash features provide some help when students are stumped.

## WORD LAUNCH

Students fill-in missing words to complete as many correct sentences as possible.

## WORD VOLCANO

The Word Volcano game allows students to decode the missing word from a sentence.

## WORKSHEETS

Makes effective use of teachers' preparation time by providing a means of creating customized tests, worksheets, and puzzles.
